## **Procurement & Supply Service Agreements**

Abrazytec / Abratech Pty Ltd offers Long Term Service Agreements (LTSA) for procurement & supply of equipment and/or plant coupled with customer-focused solutions which enable customers to achieve top-in-class levels of plant availability, and in turn help secure the reliability of the overall plant. In designing LTSA-based solutions, Abrazytec / Abratech Pty Ltd focuses on optimizing plant operations while minimizing maintenance & equipment procurement costs, taking responsibility for planning maintenance programs, spare parts supply, dispatch of technical advisors, remote monitoring, and more.

## **Long Term Service Agreements (LTSA) Key support areas**

- Short & long-term procurement & supply services to enable availability of spares for maintenance thereby minimizing plant downtime and optimize operation/maintenance costs.
- Optimization LTSA scope and spreading of maintenance costs expenditure over time to minimize customers operating costs.
- Quality parts supply & replacement and technical support from highly experienced engineers.
- Utilization of computerised stock monitoring and operating data diagnostic systems to assist with general plant optimization, including spare parts changeovers, operating load changes, maintenance interval extensions and more.
- Provision of business-risk minimization solutions, such as ways to contend with decreased demand, unexpected plant outages.
